

# TEGO® Betain C 60

Technical Information

## TEGO® Betain C 60

### Highly Concentrated Cocamidopropyl Betaine

- Highest active concentration
- Free of preservatives
- Good mildness and best purity
- Easy to thicken

#### Chemical and physical properties (not part of specification)

Form	clear low viscous liquid
Colour	light
Active Matter	approx. 46%

#### Properties

- TEGO® Betain C 60 is the highest concentrated and preservative free Betaine.
- It is compatible with anionic, cationic and non-ionic surfactants.
- TEGO® Betain C 60 shows good foaming properties and a good foam quality (finely porous and stable); the foam is not influenced by water hardness.

- It is biodegradable and has a low content of by-products.
- TEGO® Betain C 60 contains a non-ionic viscosity modifier (< 0.5%).

#### Application

TEGO® Betain C 60 is used e. g. in

- Liquid dishwashing detergents
- Household cleaners
- Car shampoos
- Fire-fighting foams

#### Packaging

220 kg drum  
1000 kg container

#### Storage stability

The product should be stored in sealed original package at temperatures between 5 °C and 40 °C. At temperatures below 0 °C the product could be damaged.

## Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fires
- toxicity and ecological effects

is given in our material safety data sheets.
